PROFESSIONAL SUMMARY

Senior Software Engineer at Intuit with 8+ years of distinguished experience across leading organizations including Walmart Labs, Zeta Suite, and AllGoVision Technologies. Graduated with B.Tech in Computer Science from Manipal Institute of Technology.

Proven track record in developing **high-performance, scalable enterprise applications** handling mission-critical operations with **low-latency requirements**. Expert in full-stack development with deep expertise in **Java, Spring Boot, Microservices, and Cloud Technologies**.

Strong background in **AI/ML technologies**, actively pursuing knowledge through LinkedIn Learning, Coursera, and Udemy with recent certifications. Experienced in **OpenAI Agent SDK, CrewAI, RAG systems, and Hugging Face** for transformer models.

TECHNICAL SKILLS

Languages & Platforms	Java, Python, Node.js, JavaScript, C/C++
Frameworks & Tools	Spring Boot/Cloud, React.js, Angular, GraphQL, FastAPI, Streamlit
Databases & Storage	PostgreSQL, MySQL, MongoDB, Cosmos DB, DynamoDB, Redis, Memcache
Cloud & DevOps	AWS, Azure, GCP, Docker, Kubernetes, Jenkins, CI/CD, Terraform
AI/ML & Data	OpenAI Agent SDK, CrewAI, RAG/ChromaDB, Hugging Face, LangChain
Message & Search	Kafka, RabbitMQ, Elasticsearch, Solr, Apache Spark

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Intuit

September 2024 - Present

- Developed **Quote-Async** and **Quote-Service** applications enhancing customer buying experiences through data analysis and intelligent product suggestions
- Built asynchronous quote processing platform with **real-time pricing calculations** and multi-service integration architecture
- Implemented intelligent product recommendation system optimizing customer buying journey
- Technologies:** Java, Spring Boot, GraphQL, Microservices, Kafka, PostgreSQL, Redis, ReactJS, Kubernetes, AWS

Senior Software Engineer

Walmart Labs

July 2022 - September 2024

- Created **Columbus-Foundation-App** for seller management across Walmart marketplaces, achieving **100ms latency for 25K+ TPM**
- Developed **Columbus-Read-App** serving seller data to 100+ consumer teams, handling **50K+ TPM with 100ms latency**
- Implemented **MFA Omission** system improving customer login experience by intelligent 2FA to 1FA downgrading
- Technologies:** Java, Spring Boot, Microservices, Kafka, CosmosDB, GraphQL, MySQL, OAuth2, Spring-Security, Kubernetes

Software Development Engineer - II

Zeta Suite

May 2021 - June 2022

- Implemented **Recharge Service** for mobile and DTH plans, processing **over 2M transactions daily** with high reliability
- Built full-stack financial service solution with real-time transaction processing and comprehensive payment management
- Developed transaction monitoring systems ensuring **99.9% transaction success rate**
- **Technologies:** AngularJS, NodeJS, ExpressJS, Java, Spring Boot, Kafka, MySQL

Software Engineer - III

Walmart Labs

November 2020 - May 2021

- Developed **Alerting-Application** for internal system alerts and customer issue notifications with real-time monitoring
- Built comprehensive notification system with multi-channel delivery and intelligent alert routing
- **Technologies:** ReactJS, Java, Spring Boot, OracleDB, Azure

PROFESSIONAL EXPERIENCE (CONTINUED)

Senior Software Engineer

Nouveau Labs

February 2020 - November 2020

- Developed **DolphinVC** multi-platform video conferencing app with scheduling and instant meeting features
- Implemented secure authentication system with OAuth2 integration and session management
- **Technologies:** Java, Spring Boot, OAuth2, Kafka, OracleDB, Docker, Kubernetes, AWS

Software Engineer

AllGoVision Technologies

March 2018 - December 2019

- Built **AllGoVision Analytics** product with **50+ ML/DL/AI features**, serving **over 2K companies worldwide**
- Developed AllGoVision Alarm Center for alarm management generated by analytics tool
- Implemented advanced computer vision algorithms for real-time video analytics and intelligent surveillance
- **Technologies:** Java, NodeJS, Angular, MongoDB, Machine Learning, Deep Learning, Computer Vision

EDUCATION

Bachelor of Technology - Computer Science and Engineering

Manipal Institute of Technology, Manipal

2014 - 2017 | CGPA: 6.64/10

Diploma in Computer Science

NTTF Dharwad

2011 - 2014

KEY ACHIEVEMENTS

- **■ Performance Excellence:** Achieved **100ms latency** for applications handling **25K+ TPM** at Walmart Labs
- **■ Scale Impact:** Built systems processing **2M+ daily transactions** with **99.9% success rate** at Zeta Suite
- **■ Architecture Leadership:** Designed scalable microservices architecture serving **100+ consumer teams**
- **■ AI Innovation:** Implemented **50+ ML/DL/AI features** serving **2K+ companies worldwide**
- **■ Technical Excellence:** Led architectural reviews and implemented security best practices across enterprise applications

FEATURED PROJECTS

Deep Research Assistant (AI Agent)

AI-powered research assistant using **OpenAI Agent SDK** for autonomous task planning and execution with web search and email delivery.

Technologies: OpenAI Agent SDK, Python, FastAPI, Web Scraping, Email Integration

Multimodal RAG System

Advanced RAG system supporting multiple data types with intelligent document processing and context-aware responses.

Technologies: Python, LangChain, ChromaDB, OpenAI, Streamlit, Vector Embeddings

Stock Trading Application

Full-stack trading platform with real-time market data, portfolio management, and automated trading strategies.

Technologies: Python, FastAPI, React, PostgreSQL, Redis, WebSocket, Chart.js

AI Career Conversation Chatbot

Conversational AI agent with multi-model support representing professional profile with lead capture system.

Technologies: Python, OpenAI, Gemini, Streamlit, Vector Search, Lead Management

CERTIFICATIONS & CONTINUOUS LEARNING

- **AI & Machine Learning:** Learning Kubernetes, Learning GraphQL (LinkedIn Learning), AI and Machine Learning Fundamentals (Coursera)
- **Cloud & DevOps:** AWS Solutions Architect (In Progress), Docker & Kubernetes Mastery, Microservices Architecture Patterns
- **Professional Development:** Active on HackerRank for problem-solving, Open source contributor on GitHub
- **Continuous Learning:** Regular learner on LinkedIn Learning, Coursera, Udemy with focus on emerging technologies
